00000011078			
Version 2.3		Revision Date 06/17/2014	Print Date 04/17/2015
SECTION 1. PRODUCT AND CO	ME		
SECTION 1. PRODUCT AND CO		ANTIDENTIFICATION	
Product name	:	Solstice® yf Refrigerant (R-1234yf)	
MSDS Number	:	00000011078	
Product Use Description	:	Refrigerant	
Manufacturer or supplier's details	:	Honeywell International Inc. 101 Columbia Road Morristown, NJ 07962-1057	
For more information call	:	800-522-8001 +1-973-455-6300 (Monday-Friday, 9:00am-5:00pm)	
In case of emergency call	:	Medical: 1-800-498-5701 or +1-303-38 Transportation (CHEMTREC): 1-800-4 527-3887	
	:	(24 hours/day, 7 days/week)	
SECTION 2. HAZARDS IDENTIF	IC/	ATION	
Emergency Overview			
Form		: Liquefied gas	
Color		: clear	
Odor		: slight	
Classification of the substa	anc	e or mixture	
Classification of the substance or mixture		: Flammable gases, Category 1 Gases under pressure, Liquefied gas Simple Asphyxiant	
		Page 1 / 15

SAFETY DATA SHEET Honeywell Solstice[®] yf Refrigerant (R-1234yf) 000000011078 Version 2.3 Revision Date 06/17/2014 Print Date 04/17/2015 **SECTION 4. FIRST AID MEASURES** General advice : First aider needs to protect himself. Take off all contaminated clothing immediately. Inhalation : Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Use oxygen as required, provided a qualified operator is present. Call a physician. Skin contact : After contact with skin, wash immediately with plenty of water. Rapid evapouration of the liquid may cause frostbite. If there is evidence of frostbite, bathe (do not rub) with lukewarm (not hot) water. If water is not available, cover with a clean, soft cloth or similar covering. Call a physician. Wash contaminated clothing before re-use. Eye contact : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. In case of frostbite water should be lukewarm, not hot. Call a physician. : Unlikely route of exposure. As this product is a gas, refer to the Ingestion inhalation section. Do not induce vomiting without medical advice. If conscious, drink plenty of water. Never give anything by mouth to an unconscious person. Call a physician immediately. Notes to physician : Treat frost-bitten areas as needed. Treat symptomatically. Treatment SECTION 5. FIREFIGHTING MEASURES Suitable extinguishing media : In case of fire, allow gas to burn if flow cannot be shut off immediately. Apply water from a safe distance to cool container and protect surrounding area. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Specific hazards during : Flammable gas. firefighting Contents under pressure. Page 3 / 15

Honeywell SAFETY DATA SHEET Solstice[®] yf Refrigerant (R-1234yf) 00000011078 Version 2.3 Revision Date 06/17/2014 Print Date 04/17/2015 Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. Vapors may travel to areas away from work site before igniting/flashing back to vapor source. Fire or intense heat may cause violent rupture of packages. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. In case of fire hazardous decomposition products may be produced such as: Hydrogen fluoride Carbonyl halides Carbon monoxide Carbon dioxide (CO2) Special protective equipment : In the event of fire and/or explosion do not breathe fumes. Wear self-contained breathing apparatus and protective suit. for firefighters No unprotected exposed skin areas. Further information : In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion. **SECTION 6. ACCIDENTAL RELEASE MEASURES** Personal precautions : Immediately evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Wear personal protective equipment. Unprotected persons must be kept away. Wear self-contained breathing apparatus and protective suit. Eliminate all ignition sources if safe to do so. Avoid skin contact with leaking liquid (danger of frostbite). Ventilate the area. Vapors may travel to areas away from work site before igniting/flashing back to vapor source. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing.

> Avoid accumulation of vapours in low areas. Unprotected personnel should not return until air has been tested and determined safe.

Ensure that the oxygen content is >= 19.5%.

rsion 2.3		Revision Date 06/17/2014	Print Date 04/17/20
Environmental precautions	:	Prevent further leakage or spillage if s The product evapourates readily. Discharge into the environment must	
Methods for cleaning up	:	Use explosion-proof equipment. No sparking tools should be used. Ventilate the area. Allow to evapourate.	
CTION 7. HANDLING AND S	ſOF	AGE	
Handling			
Handling	:	Handle with care. Wear personal protective equipment. Do not breathe vapour. Avoid contact with skin, eyes and clot Use only in well-ventilated areas. Pressurized container. Protect from si to temperatures exceeding 50 °C. Follow all standard safety precautions compressed gas cylinders. Use authorized cylinders only. Protect cylinders from physical damage Do not puncture or drop cylinders, exp or excessive heat. Do not remove screw cap until immed Always replace cap after use.	unlight and do not expose s for handling and use of ge. pose them to open flame
Advice on protection against fire and explosion	:	Container hazardous when empty. Prevent the creation of flammable or of of vapour in air and avoid vapour com- occupational exposure limits. Keep product and empty container aw sources of ignition. Do not pressurize, cut, weld, braze, se expose containers to heat or sources. Take measures to prevent the build u Electrical equipment should be protect standard. Use explosion-proof equipment. No sparking tools should be used. No smoking.	centration higher than the vay from heat and older, drill, grind or of ignition. p of electrostatic charge.

e i			
Storage			
Requirements for storage areas and containers	:	Pressurized container: protect from s to temperatures exceeding 50 °C. Do after use. Keep containers tightly closed in a dr place. Keep away from heat and sources of Storage rooms must be properly vent Ensure adequate ventilation, especia Protect cylinders from physical dama Store away from incompatible substa Store in original container.	y, cool and well-ventilated ignition. ilated. Ily in confined areas. ge.
TION 8. EXPOSURE CONT	ROL	S/PERSONAL PROTECTION	
Protective measures	:	Ensure that eyewash stations and sat the workstation location. Do not breathe vapour. Avoid contact with skin, eyes and close	
Engineering measures	:	Use with local exhaust ventilation.	
Eye protection	:	Safety goggles	
Hand protection	:	Protective gloves Gloves must be inspected prior to use Replace when worn.	e.
Skin and body protection	:	Avoid skin contact with leaking liquid Wear suitable protective equipment.	(danger of frostbite).
Respiratory protection	:	No personal respiratory protective eq required. When workers are facing concentration limit they must use appropriate certific Use NIOSH approved respiratory pro-	ons above the exposure ed respirators.
Hygiene measures	:	Handle in accordance with good indu practice. Ensure adequate ventilation, especia When using do not eat, drink or smok	lly in confined areas.
